

Sylvia Stocker

Global Robotics &
AI Thought Leader

<< *Three words to describe her presentation: exciting, entertaining and a mindset challenge.* >>

Christoph, InnoHub

Speaking Topics

- Driving resource optimisation with Robots & AI in Healthcare
- Amplify Humanity with human-machine interaction
- Amazing Customer Experience in Hospitality with Robots
- Boosting the event business with robotic solutions

In her highly inspirational talks, Sylvia reveals the secret of business transformation with Robots & AI.

Your audience will walk away with powerful insights and tools they can instantly put into action to transform business.

Bio

Sylvia is a global Robotics & AI speaker and advisor, Founder & CEO of Arabesque. She draws on a wealth of experience in Robotics, Economics and the Performing Arts. Previously she worked out of New York, Paris, London and Barcelona.

Besides her fascination for Robots and the interaction between human and machine, Sylvia loves to challenge herself on the exponential mindset, meditation, sports and design. She holds a BSc in economics from CEIBS and an altMBA from Seth Godin.

Arabesque stands for human-centered Robotics & AI for Business.
